DETAILED ACTION

Amendment

The amendment filed on 15 December 2005 has been entered into this application.

Examiner's Reasons for Allowance

Claims 1 and 4-16 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 4-5 and 11, the examiner agrees with the applicant arguments filed 15 December 2005 that the prior art of record, taken alone or in combination, fails to disclose or render obvious a rotating compensator for retarding the phase of one polarization state in the probe beam with respect to the phase of the other polarization state in the probe beam, further the prior art of record, taken alone or in combination, fails to disclose or render obvious a processor for evaluating characteristics of the sample based on the output signals with said evaluation including accounting for the polarization effects induced by the objective. Claims 6-10 and 12-16 are allowable by virtue of their dependency on claims 1, 5 and 11, or any intermediate claims.

Conclusion
